1. Petroglyph Trail

This is a an easy trail that is well marked and established to the base of the mesa where the petroglyphs are located. The trail up to the petroglyphs near the mesa top is not as defined as one can fiind numerous paths up the slope.

2. North Mesa Loop

This loop is easy to moderate, however do not expect to see any petroglyphs. This trail provides an overview of the valley when atop the mesa. At the north end is a small cave or alcove that many visit. Faint evidence of petroglyph near the opening as well as recent graffitti.

3. South Mesa Loop

This loop is moderate, however do not expect to see any petroglyphs. Like the other loop, this trail provides an overview of the valley when atop the mesa.
