

AH-SHI-SLE-PAH WILDERNESS STUDY AREA (WSA)

- Activities:** Hiking, photography, primitive camping.
- Facilities:** No electrical hookups, water, or restrooms are available.
- Season / Hours:** Open year-round.

Description: The Ah-shi-sle-pah Wilderness Study Area (WSA) is located in northwestern New Mexico and is a badland area of rolling water-carved clay hills. The area is rich in fossils and has little vegetation to conceal geological formations. The thin vegetation includes sagebrush, piñon-juniper, Great Basin scrubland, and grassland. It is a landscape of sandstone cap rocks and scenic olive-colored hills. Water in this area is scarce and there are no trails; however, the area is scenic and contains soft colors rarely seen elsewhere.

Rock units within the Ah-Shi-Sle-Pah include most of the upper Fruitland Formation (Fossil Forest Member) and lower part of the Kirtland Formation (Hunter Wash Member), both late Cretaceous in age. The rocks are dominated by mudstones and intermittent sandstones, with occasional resistant channel sandstones.

Access: From Aztec: head south on US Highway 550 for 8.5 miles (downtown Bloomfield) and turn right on Broadway Ave. At next light (0.3 miles) turn left back onto US Highway 550 and travel 28.1 miles to NM 57. Travel along NM 57 which goes from paved with potholes (4.9 miles) to gravel to dirt road (13.2 miles). At 18.1 miles there will be a two-track road, turn onto the two-track and stay right. Parking to access the WSA is 0.2 miles.

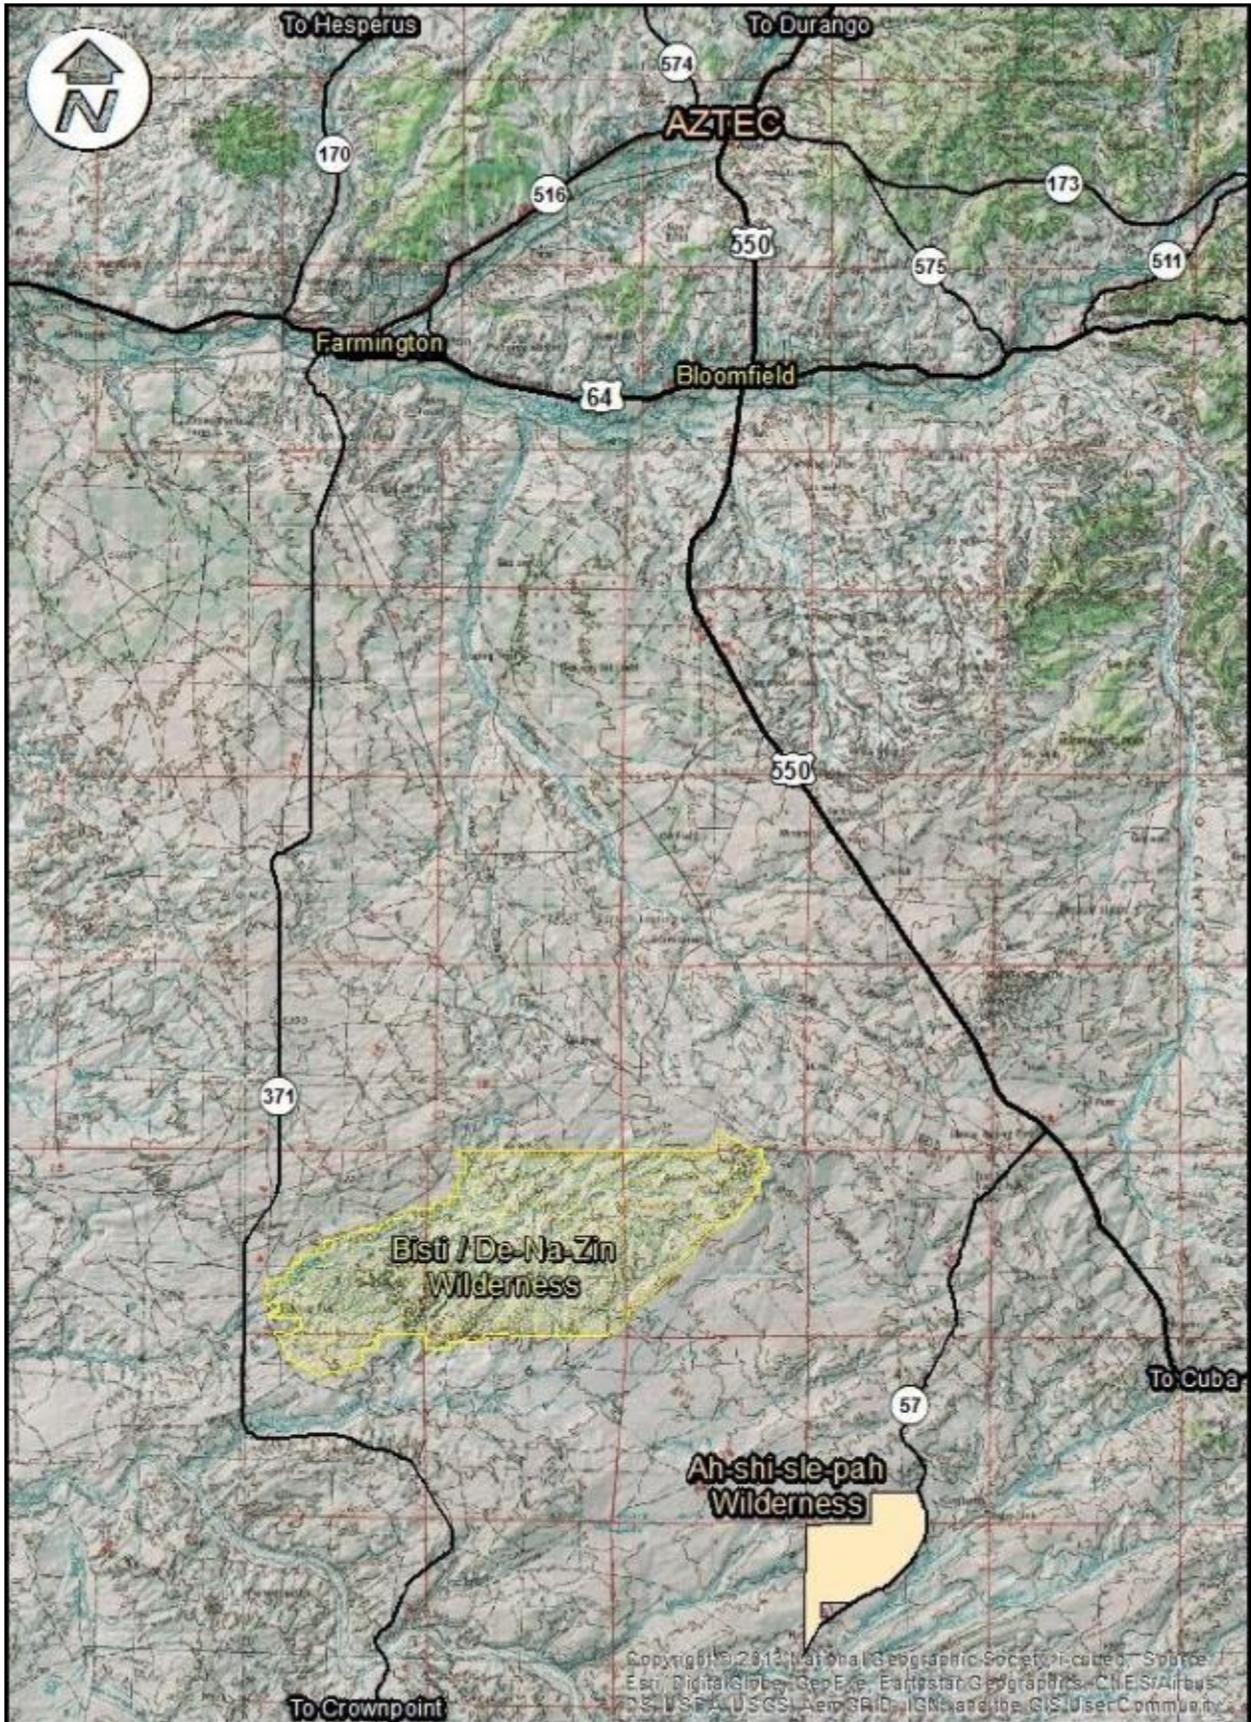

Please Note:

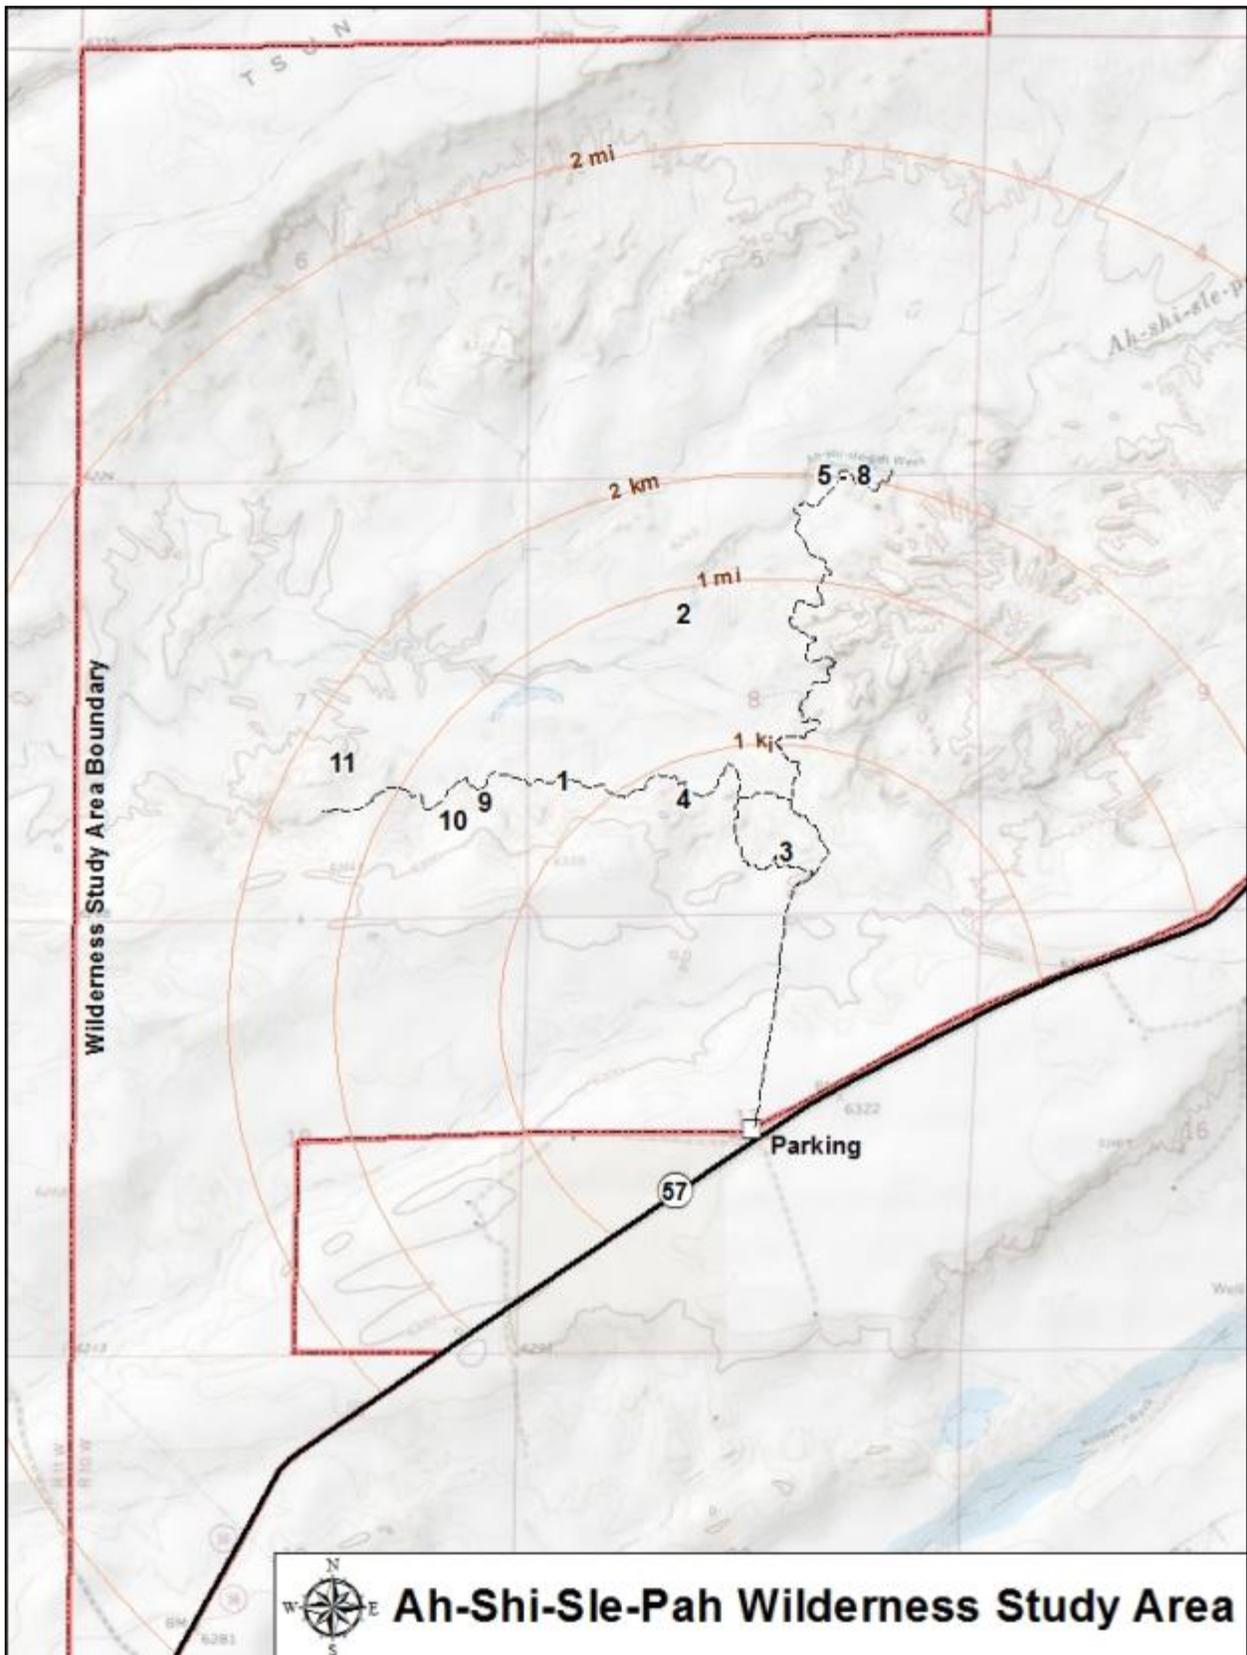

- 1. NM 57 is a dirt road and may become impassible during or after inclement weather. Drivers should avoid dirt roads during rain or snow. Drivers should be cautious of wash-out following rain or snowmelt.*
- 2. This is a non-motorized area. Please park alongside NM 57. Be cautious, the surrounding area is comprised of private Navajo Nation lands and trespassing is prohibited.*
- 3. There is no access to Chaco Culture National Historic Par from NM 57.*
- 4. There are no marked trails in this WSA. Visitors must possess knowledge and skill in cross country hiking and navigating.*

- Special Rules:**
- Since this is a Wilderness Area, it is closed to motorized vehicles and mechanical forms of transportation (mountain bikes included).
 - Also prohibited are campfires, collecting fossils or petrified wood, climbing on delicate geologic features, traveling in groups of more than eight people, and trespassing on adjacent tribal lands.
 - Permits are required for uses such as grazing, scientific research, and commercial guiding.

Have a positive influence on the area and those around you, practice the **Tread** Lightly!

- T**Travel only where permitted.
- R**espect the rights of others.
- E**ducate yourself.
- A**void streams, meadows, and wildlife areas.
- D**rive and travel responsibly.
